# PALISSADE COLLECTION DESIGN BY RONAN & ERWAN BOUROULLEC

Designed by French brothers Ronan and Erwan Bouroullec, Palissade is a collection of outdoor furniture for HAY in powder coated or hot galvanised steel. United by a common principle of symmetrical geometry, the Palissade collection is engineered to reproduce the same visual simplicity and core strength throughout. Designed in colour and form to integrate effortlessly into a natural landscape or urban setting, Palissade is intended to be used over a longer period of time and become more beautiful over the years. The collection is suited to a wide variety of environments, from cafés and restaurants to gardens, terraces and balconies.

Ronan & Erwan Bouroullec the Paris-based design brothers from Brittany have been working together since 1998. They have transformed the design industry and offered new perspectives of materiality and purpose. For HAY, they have designed the Palissade Collection, Copenhagen Collection, Can Sofa, Élémentaire Chair, Passerelle Table and Pier System.

Take care not to scratch the chairs against each other when stacking them.  
Do not move or drag the chairs around when stacked as the weight will damage the legs.

Please make sure to wipe all hot galvanised surfaces before use, as the zinc surface oxidises during transportation and can become humid. This can stain your clothing if it comes into contact with it.

## SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
