

May Table

The May series takes the New Works universe alfresco with outdoor furniture for the garden, patio, or balcony. Made from powder coated steel, this hard-wearing furniture family consists of stackable chairs with and without armrests and tables in two lengths, harmoniously coordinated to complement each other.

Product highlights

- Part of a family ensemble consisting of the May Chair, Armchair, Bench and Tables.
- Available in two sizes.
- Features an outdoor powder coating.
- Suitable for use in both public and private settings
- Made from steel for heavy, qualitative feel.

Product Type Table, Outdoor Furniture

Designer Hannes & Fritz, 2023

About the Designer

Hannes & Fritz is the design studio of Johannes Breuer & Fritz Gräber. With Johannes in Stuttgart and Fritz in Zurich, they develop each project through a mix of individual and mutual work across cities. Both have a very similar skillset and common interests, but they each bring their own unique perspective to their collaborative projects; Johannes' tendency to be rather linear and emblematic, and Fritz's more dynamic and expressive design language. Merged together, the results are more interesting than what each designer could have achieved individually.

Environment Outdoor

Country of Origin China

Assembly Requirements Attach legs to table top.

Material

The May Table is constructed from steel, with a primer and top coat suitable for outdoor use. The frame is made from polished steel tubes welded together. It is designed with strong cast aluminium corners and detachable legs. The table is optimized for flat-packing.

Cleaning & Care

Clean the table using a soft, dry or slightly damp cloth. If needed, apply a mild detergent and promptly wipe away the soap residue with a clean cloth. Avoid using abrasive cleaning tools or strong cleaning agents as they may cause damage to the surface of the product.

With regular use, minor rust spots may naturally appear. Scratches or damage to the powder-coated surface can make the exposed areas more prone to corrosion. Chipped or peeling paint from impact may further increase this risk. Furthermore, placing the furniture near the sea can accelerate the corrosion process.

Dimensions

85x85
Height: 740 mm / 29.1"
Width: 850 mm / 33.5"
Depth: 850 mm / 33.5"
